Card of Thanks

F. S. Kafoury and family desire to express their sincere thanks to all who assisted them during the illness of their little daughter, and to those who expressed sympathy through the medium of floral offerings, and attended the funeral. Particularly they thank the teachers and pupils of the local school who turned out in a body to pay a tribute to their departed schoolmate.

Blairmore's senior baseball team journeyed to Pincher Creek on Wednesday afternoon, accompanied by about sixty fans. The game was so much one-sided that there was very little excitement created, and the entertainment did not seem pleasant for the Creeks. Over fifty per cent. of the people in the grand stand were from the fans who contributed about that proportion of the gate receipts.

Blairmore Chautauqua August 12th to 18th

The dates set for the 1919 Chautauqua in Blairmore are August 12th to 18th. Included in the programme this year will be Dr. Wm. Rader, formerly a great preacher and now a leading journalist and lecturer; Liszt, Bruno Roselli, loaned by the Italian embassy to speak on "Italy's Place Among the Nations"; Mr. Glenn Frank, editor of the Century Magazine and one of America's most brilliant thinkers; and other speakers of note. For music, the Merrilee Entertainers, the White Hussar Singing Band, the Metropolitan Artists Trio, and Vienna's Royal Entertainers.

The Pass 14 Years Ago

(From the Frank Paper 1905)

July 6—Arthur Williams, son of Superintendent Williams, is now storekeeper at Lile.

The coal company has started work on the excavation for a hotel at Lile, which is to be located just north of the town. It will be a two-story structure with a 75-foot front, with 21 bedrooms, commodious office and dining room, etc.

The christening of the new heir of Horace Secotte, which took place at Lile on Sunday last, was made quite an event. Assistant Superintendent Blom, Green stood as godfather and Miss Elva Aubertin as godmother. The ceremony was performed by Rev. Father Lepine. In the evening a supper was served, a number of people, including representatives of the Williams, Blom, Green, B. Iverson, Mr. and Mrs. Anderson, Dr. Faure, Mr. and Mrs. Ducloux, Father Lepine and others.

It is stated the McInnes Coal Company will open up their property north of Peace River.

A meeting of Frank business men was held on Friday for the purpose of attempting to reach some conclusion as to what should be done relative to the proposition of opening the trail to the Flathead country. It was decided to appoint a committee to obtain information as to what amount of business might be expected in the event of the trail being opened up and a pack-train being instituted. This committee has reported that in their opinion there would not be sufficient business to be derived from that source to warrant the expense of the undertaking at the present. In the meantime Blairmore has raised \$200 to cut a trail through to the South Fork from that place, which will connect up with the Flathead trail through the North Saskatchewan Pass.

The first brick hotel for Frank is planned to be built by Thomas Jones, of the Canadian Metal Co. The building will occupy the triangular shaped lot at the head of Dominion Avenue, on the west side.

An audit of the Fraternal Order of Eagles was organized at Coleman on Sunday last by Ivan Hedin, of Victoria. Presbytery has granted \$500 to assist Rev. T. M. Murray in the erection of the new institutional church at Coleman. Presbytery also added a loan of \$1,000 in view of the town raising \$1,400.

The Frank hotel had the only flag flying on Dominion Day and July the 11th. Henry Gibson has purchased a swell two-wheeled car for his wife and little daughter Francis.

Frank was visited this morning by a distinguished individual in the person of M. Kuhn, a German, first baron. The party is now camped on the North Fork and will travel west to the Elk River by way of Gould's Dam, thence to the headwaters of that stream.

J. H. and Mrs. Farmer, George and Miss Cecilia Fernau, Miss Winifred Hall and C. D. McInnes, of Frank, and Miss Gertrude Chambers, of Blairmore, composed a fishing party to Crow's Nest Lake on Tuesday.

H. E. Lyon figured quite prominently in several of the events on the programme of sports at Maledon the first of the week. He was second in a number of events, but was unable to land a fish.

The West Canadian Collieries Co. are building a new dwelling house at Blairmore for Mr. D. A. McFarland, chief accountant.

Jim Robinson, the well known hunter of Crow's Nest, got a bear near the shore of the lake on Monday last. This is the seventh Jim has bagged this season.

Meeting of Town Council

At the regular meeting of the town council on Thursday night last, Mayor Ewan and Councillors Montalbetti, McLeod, McDonald and Moroney were present.

The minutes of previous meeting were, on motion, adopted as read, and the accounts of B. Seranda for \$16.00, and Department of Municipal Affairs for \$5.00, were duly passed for payment.

The tender of B. H. Turner for removing the old post house from the cemetery to the town lots on Sixth Avenue, was accepted at \$55.00, condition stipulated that building be levelled on blocks.

Mayor Ewan gave notice that at the next regular meeting of the council he would introduce a by-law, striking a mill rate for 1919. By-law No. 61, authorizing the borrowing of a sum of money from the Union bank to meet accrued debentures, etc., received three readings and was finally passed.

McDonald-Moroney—That the new light rate for the Sanatorium be 16 cents per kilowatt hour, and that the rate for consumers in the village of Frank be 18 cents per kilowatt hour, the rate being occasioned through the increase on the part of the suppliers.

Councillor Moroney presented a bill for \$215, covering fees for firefighters in connection with the recent fire. Council McDonald disallowed the account as being exorbitant and undertook to have same revised. He was granted that privilege and we learn that since the meeting of last Thursday he has had the account adjusted. To the satisfaction of at least the majority of the fire fighters at a saving of about \$90 to the town.

The Dependent

That there were 1094 neglected and dependent children in 1918, and 313 delinquent children dealt with by the Provincial Department during the year 1918, is the information contained in the tenth annual report of the Department of Neglected and Dependent Children, just printed. The figures indicate an increase in the number of neglected and dependent children as compared with the previous year. This is accounted for in a large measure by the rise of epidemic influenza that swept across the province during the early fall months of last year, and the sudden death of one or more parents, leaving many children absolutely helpless. In a great many instances near relatives were discovered who were easily persuaded to take charge of these children. In cases where no relatives were to be found they were treated as other neglected or dependent children, and placed in foster homes. During the year 1918 were adopted and 267 placed in private homes under temporary agreements.

The report urges the necessity of some provincial home for boys being established within the very near future, and urges that this institution take the form of a combination farm and college.

The superintendent does not limit his report to the dry statistics. He gives, in a very brief way, some indication of the child saving problem as it presents itself at the present time. Among the gains that may be recorded during the past year or two, he mentions the increase in activity on the part of the Social Service League, the Women's Institutes and others. In baby saving activities, the establishment of an institution for feeble minded, the passing of a Mothers' Allowance Act and the amendment to the Criminal Code that makes it a criminal offence for any person to indulge in vicious actions in any home where children live.

Among the advances that are urged is a betterment in the housing conditions, especially in some parts of the province. According to the report, many serious housing problems were discovered while the epidemic of influenza was at its peak. The need on the part of the cities of increased facilities for supervised play and the necessity of a Dominion Child Welfare Bureau are emphasized.

It is the opinion of the department that the experiment made a year or two ago in the appointment of women commissioners in the juvenile court, has demonstrated its value. The advantage of having girls tried before a commissioner and officers who are sympathetic members of their sex, is so valuable that it is a wonder that the system was not initiated years ago.

Thrift in the Schools

In the schools of Canada alone the War Savings campaign is fought with great possibilities and already the returns show that splendid progress is being made. What has been done in the schools of the United States is a fair indication of what may be done in the schools of Canada.

In the schools of New York there is said to be a little over 700,000 children. During the period December 1917 to January 31, 1919, no less than \$5,448,000 worth of War savings and Thrift stamps were sold in these schools, which means slightly more than \$7 for each child.

The Thrift Campaign in the schools of the Dominion will produce 100 fold in results. Every child should be enrolled in the War Savings arm. Parents should see to this. It will discipline the child in thrift, provide it with a good investment and benefit the country.

Dr. Lyon H. Appleby, of Clarendon, Ontario, arrived in town this morning on a visit to his father, Mr. Thomas Appleby, Dr. Appleby has until recently been house

surgeon at the Vancouver general hospital.

According to Mike Rosse, Saskatchewan, has issued quite a bunch of vehicle licences this year. He says that his boy Millie arrived in Blairmore from the sister province on car number 223629. Maybe that's a C.P.R. box car.

While the present damphool laws in which the authority rules, have to a certain extent legitimized bootlegging in the mind of man, there is no penalty too severe for a cur who will manufacture such vile stuff and sell it to the public under the guise of honest liquor.

While part of Blairmore's ball team were en route to Pincher on Wednesday afternoon they were attacked by a pack of vicious gunners on the Lee Flats. A regular pitched battle ensued, bringing to Jimmy Turner's mind some of the events witnessed by him over the other side of the Atlantic. Over autists following close behind were obliged to get out and clear away the dead, before they could pass on.

Huns Must Sign Treaty This Week

Paris.—Distinct progress was reported on the reply of the allied and associated governments to the German counter-proposals. The government will be given five days' limit for final action, which would therefore come on or before June 18.

The main feature of this progress was an agreement regarding the reparations terms, which have been the subject of a sharp controversy during the past ten days.

As finally adopted, the terms do not fix the definite amount of reparations, but the commission is required to fix the amount within four months of the signing of the treaty.

The main changes are explanations rather than modifications, in order to meet the contention that the financial commission was vexatious, inequitable on Germany's rights to conduct her own financial affairs.

The revised terms clear away much that was open to the construction of being vexatious.

Final action on Germany's request for admission to the League of Nations has not yet been reached, but the discussion is declared to be tending toward an accord.

The Silesian question, which has given difficulty, also has virtually been settled. It is practically certain that the revised treaty will not be submitted to a plebiscite conference with the smaller powers before the reply is sent to the Germans. The revised treaty and memorandum accompanying the treaty will be sent to Count von Brockdorff-Rantzau, head of the German delegation, by messenger without ceremony.

Dry City To Have \$7,000,000 Hotel

Work Will Be Started Within Sixty Days

Detroit, Michigan.—In view of the oft-repeated statements of the liquor interests that prohibition would ruin the hotel business of the state, it is interesting to note the announcement that work will be started within sixty days on a hotel for Detroit, which will cost \$7,000,000, and contain 1,000 rooms. It will be financed entirely with Detroit bonds.

On Madison avenue, Wilberth street, and Adams avenue, and the hotel will overlook Grand Circus Park.

French Are Passive

Toward the Movement for a Rhenish Republic

Paris.—The attitude of the French government toward the movement for a Rhenish republic is a passive one, according to a statement by a high French authority on the French official position.

"The attitude of the French government toward this manifestation," the authority said, "is the same as the attitude of the other allied governments—that is, one of passiveness. Besides the French government cannot profit by this manifestation, since the promoters of the movement have placed the Rhenish republic under the German republic."

"The French forces have been instructed simply to maintain order and prevent outbreaks of violence on either side."

Truce Between Austria and Jugo-Slavs Belgrade.—The armistice between the Austrians and the Jugo-Slavs in the region of Klagenfurt was forced by the entry of Serbian troops into the city to re-establish order, the Austrians having failed to accept the Jugo-Slav conditions for a cessation of hostilities in Carinthia, according to an official statement from Serbian headquarters.

Hon. Crerar Speaks On The Budget

Is Opposed to Fiscal Policy, While Hon. Calder Is Satisfied

Ottawa.—Members of the commons who anticipated a livening up of the budget debate because Hon. T. A. Crerar and Hon. J. A. Calder were billed to speak were not disappointed. Mr. Crerar explained that he had dropped out of the government because he found himself in sharp opposition to his colleagues on the fiscal policy, and the only honorable course to pursue was to tender his resignation.

Mr. Calder, on the other hand, maintained that until demobilization is complete the tariff was not an issue. Mr. Crerar objected to the budget because of its protectionist tendencies, while Mr. Calder maintained that he would have been satisfied with no tariff changes been announced this session. He agreed with Sir Thomas White's proposal to have tariff revision a little later on, whereas Mr. Crerar was of the opinion that it should take place now as a means of helping production and reducing the cost of living.

The ex-minister of agriculture suggested various means of raising revenue, including a tax on unimproved values of land, which, he said, would yield from 70 to 80 million dollars annually.

Mr. Calder emphasized the point that the retirement of other Liberal Unionists from the cabinet would precipitate a political crisis, and asserted that despite the pleadings and even threats of many of his friends, he proposed to follow his own conviction. He intimated his belief that when the principles underlying the revision of the tariff became a matter of consideration by the cabinet the time may have arrived for the retirement of the other ministers of the government. Closing, he expressed the fear that a dangerous situation will be created if no effort is made to remove the cleavage between east and west.

Japanese Boycott

Bankers, Merchants and Workmen Leading Support to Movement

Pekin.—The Chinese government is unable to stem the tide of the Japanese boycott movement, being pushed by the students. The bankers, merchants and workmen in Shanghai are lending their support to the movement.

The government decided to release the students arrested several days ago, but the students decline to leave the university in which they are confined unless the chief of police publicly apologizes for the arrests.

Demonstrations in favor of the boycott movement continue without restriction.

Germans Aided Bolsheviks

Helsingfors.—The treacherous attack of German cavalry upon the Estonians when the latter were pursuing the Bolsheviks was under the direct order of General von Der Goltz, commander of the German forces in Letland.

The action unmasks the Germans as secret accomplices of the Bolsheviks and the Estonians will now begin military operations against the Germans.

Answers from over 200 locals of the Saskatchewan Grain Growers' association to a questionnaire sent out by the central office, asking for expressions of opinion in regard to the organized farmers entering politics, are all in the affirmative.

Rioting in Winnipeg

War Hero Injured By Mob and Special Constable Shot

Winnipeg.—Following the first riotous scenes since the return of the regular police force, which was dismissed by the police commission following refusal to pledge themselves to refrain from joining sympathetic strikes, seven arrests were made. Serious trouble continues to brew, and a large crowd of strike sympathizers jeered and booed the special constables.

The crowd surged into the street, and it was in an effort to clear a path for vehicles that the specials came into conflict with demonstrators. One of the mounted constables, Sergeant Frederick G. Copping, winner of the Victoria Cross in the great war, was the only person seriously injured. He was dragged from his horse and severely pummeled before being rescued.

When a squad of special police was dispatched to the aid of their sorely pressed comrades, they were met by a fusillade of missiles, and the police retaliated by a free use of their batons on the heads of demonstrators. The appearance of an additional detail of 200 policemen marching down Main street in platoon formation had a calming effect on the crowd and the rioting ceased as suddenly as it began.

In another clash between a crowd led by solicitor and four special constables, Constable P. S. Morrison lying in the hospital with a shot wound through his thigh and blood oozing from his head with a club and knocked unconscious, but is not seriously injured.

Special Constable Morrison was on patrol duty in the vicinity of the Canadian Pacific railway station on Higgins avenue in company with three other officers. A hostile crowd of what is estimated to have been over a hundred persons, of whom the majority are alleged to have been alien strikers, commenced to gather, and for some time continued to heckle the constables. Suddenly the crowd closed around the policemen. Morrison was the last officer to be disposed of by the crowd, being knocked unconscious by a blow on the back of the head. At the instant that he fell a big man was seen to have raised club above his head. An automobile then reached the scene, and the driver, who was a club member, reversed the motor and the crowd entered the car. The bullet missed the object and passed through the thigh of Constable Morrison, whom the driver had intended to aid.

At a special meeting of the police commission a resolution was passed relieving the chief of police, Donald MacPherson. Chris H. Newton, hitherto deputy chief, is now the acting chief.

In a statement issued by the police commissioners it is stated that the commission "deemed it advisable to place the reorganization of the police force in charge of Deputy Chief Newton."

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Hanalei That Never Can Be Rebuilt.—Paris.—Investigations by the commission which is examining the devastated regions of France are confirming the previous opinion that many of the beautiful towns and hamlets of the battle area are so totally ruined that they never can be rebuilt.

Valley, of immortal fame, has taken its place in the long list, and the mayors of two other historic villages, Douaumont and Fleury, have recently notified their people, who are refugees in various parts of France, that these places cannot be reclaimed. Not only is the soil in such shape that it cannot be cultivated for many years, but the ruined hamlets are filled with hidden explosives and other dangers.

Protests Against Territory Losses

Paris.—An Austrian note complains strongly against the dismemberment of Austria, particularly the separation of Bohemia and the Tyrol. The note says that Austria cannot survive the loss of her industries. It is added that the Austrian delegation is prepared to send immediately observations on the territorial clauses of the peace terms.

Rhenish Republic Ready to Pay Share

Cologne.—Dr. Datten, president of the new Rhenish republic, has telegraphed Sir William Robertson, commander of the British forces of occupation here, announcing the formation of the republic and repudiating any desire to evade "a just share in the reparation of war damages." He appeals to the entente powers to protect the new state from inevitable revenge from Prussian militarism.

Inhumanity in Russia

More Stories of Ruthless War Crime From Russian Baltic Provinces

Paris.—Howard Herman at the Baltic headquarters of the relief administration situated at Libau has written to the Paris headquarters a graphic description of the scenes in the Baltic sections from which the Bolsheviks have been expelled. Describing the conditions he found in Riga, Captain Herman says:

"Among the sights I have seen was the shooting of eighteen Bolsheviks, three at a time, by a German firing squad. It was German efficiency at its best. A ditch was dug by Bolsheviks awaiting trial, and the other wretches, already condemned, came up three at a time as their names were called."

"The condemned men stood with their heels at the edge of the ditch and with their eyes unblinded, faced their executioners—nine hard German soldiers, some of whom fired at each condemned man's head and one at each heart. After the last three had tumbled into the hole that had been dug for them, Bolsheviks awaiting trial threw a few shovels full of dirt into the grave, and were then led back to prison."

"Our moving picture operator was turning the crank of his camera during all this. He had no appetite for dinner after taking a close-up of the open grave."

To Sow Seeds Of Revolution

Bolshevik Secret Agents in Every City Throughout U.S. and Canada

Boston, Mass.—There are over 173,000 Bolshevik secret agents working in the United States and Canada at the present time, according to Gen. Dobrynsky, of the National Russian army, who is in Boston on a mission for the Omsk government to interest leaders of opinion in the movement to fight Bolshevism in America as well as in Russia and to help gain recognition for the Omsk government by the allies. The general was head of the technical department of the Russian Ministry of War before the Bolshevik revolution, and was very instrumental in saving the vast military stores of the allies collected at Vladivostok and elsewhere, valued at over \$850,000,000. He fled from Russia disguised as a workman, and later fled to Europe and the United States, where the Bolsheviks gained power, and thus was able to help the allies in Siberia.

He declared that there is a world-wide menace from the Bolshevik doctrine, which is being propagated with stolen Russian gold by means of secret agents in every manufacturing and mining city and town and seaport throughout the United States and Canada. He declares that these agents have divided the two countries into districts, in each of which a soviet is to be established after existing governments are overthrown.

These agents have a number instead of a name, to disguise their identity. And an agent bearing the number of 173,000 has been discovered by the committee. Many of them are of Teutonic origin as well as the leaders in Russia, who adopted Russian names there to disguise their origin. America and Canada must be on their guard to crush out this menace and ferret out the agents, he says.

Reform For Ireland

Prospect of Large Measure of Reform Is Bright

London.—The Daily News prints the following from an Irish correspondent:

"There has been a vast amount of speculation regarding the intentions of the government toward Ireland, and the prevailing idea is that the government intends to embark on a larger policy of aggression."

"I have reason to know from an authority of very high standing in regard to Irish politics, but whose name I am not in a position to disclose, that the prospect of a large measure of reform for Ireland is very bright."

"As a return for his attitude with regard to the claim of Ireland to be heard at the Peace Conference, the authority to whom I allude states that President Wilson has obtained a very definite undertaking from the Prime Minister that a wide measure of reform for Ireland will at once be taken in hand."

Austrians Appeal for Assistance

Paris.—The Austrian delegation at St. Germain has asked Germany to protest to the allies against the rigor of the peace terms presented to Austria, the Havas Agency says it is informed from a reliable source. The reported action of the Austrians is unfavorably commented upon here.

Germans Fear A Blockade Renewal

Overpayments To Soldiers Found

Inquiry By Public Accounts Committee Reveals Many Errors

Ottawa.—The inquiry by the public accounts committee into overpayments made by the separation allowance and assigned pay branch of the Militia Department to soldiers and their dependents was continued, with Mr. T. Cox, chief accountant of the branch, as the chief witness.

Mr. Cox informed the committee that overpayments totalling \$202,000 had been definitely ascertained, but that there are from twenty to twenty-five thousand ledgers showing overpayments in addition and that the total had not been figured up.

Mr. Vent, who was conducting the inquiry by the figures available for the sum could be ascertained by two clerks with an adding machine in a couple of days, but Mr. Cox said it would take his whole staff six days to do the work.

Finally Mr. Cox undertook to do his best to have the figures available for the committee by Wednesday.

The witness had previously explained that when an undischarged soldier is overpaid, the amount is recoverable from his pay, and when he is discharged the department still has recourse to the soldier's war gratuity. Overpayments were first discovered as the result of an inquiry held in 1917. They are due in most cases to overlapping of payments in England and Canada, which could not always be avoided.

Mr. Jacobs asked the witness if it was so that pensions had been paid to the relatives of soldiers believed to be dead, and they had turned up safe and sound. Mr. Cox said he had heard of only one case of that kind. To Mr. Parent, the witness stated that over forty thousand dollars overpayment has so far been recovered from the war service gratuity fund.

Strong Labor Unions For Losses By Strike

Important Question Raised by Suit in Courts of the United States

Pittsburgh, Pa.—E. Anderson, an attorney, filed a suit in equity in court here against the Amalgamated Association of Street and Electric Railway employees, in which the union is asked to pay damages of \$2,035,000.78, which sum it is claimed, was lost by the people as a result of the recent strike of the street car employees.

The suit raises the question of the right of employers engaged in such a service to strike to enforce demands for better pay and improved working conditions. Receivers of the Pittsburgh railway company are named as party defendants.

A Long Trip

North Portal.—A herd of Ottawa, Kansas, arrived here recently with team, wagon and dog. He is following the long trail from Kansas to the Peace River country, a distance of over 2,000 miles. He is not discouraged, though taken down with "the run" and told that his horses would be shot at the boundary and this his dog would not be admitted to Canada.

Assist Veterans To Go On The Land

Ottawa.—When Hon. Dr. Beland rose to continue the debate on the budget he was vigorously applauded by members of both sides of the House.

With the war over, said Dr. Beland, Canada's soldiers were now returning to their homes. What the government should do was to help as many of these men who desired to become farmers to settle on the land. The financial assistance which the government offered to soldiers who desired to settle on the land was not sufficient incentive. He believed the government should give them a fiscal policy which would in itself be an invitation to become farmers. The farmer wanted free implements. Granted the admission of this necessary to make a home. Dr. Beland asserted immigration should be stopped for a time at least, or at any rate confined to farm laborers and domestic servants. He regretted very much the Siberian expedition, and asked why the government had not intervened to have better treated from cold storage. There were dangerous agitators in the country. No quarter should be given to them. But no quarter also should be given to the profiteer.

Berlin.—(Reuters).—A terrible picture of the fate awaiting Germany unless she signs the peace treaty is drawn by the Vossische Zeitung, which prophesies that "the allies will, in any case, occupy more of the west German industrial region. The Poles will attack us in the east. In a short time trains will cease to run owing to lack of coal. Our towns will be without gas, food and electricity, and we will be unable to thresh the new corn except with the flail. Our industries will cease owing to lack of raw materials. In short, the life of the whole nation will come to a standstill and collapse."

The Journal further pictures Soviet republics being established all over Germany with Berlin as a Soviet republic. It finally begs all who are opposed to signature of the peace treaty to reconsider the question in the light of these possibilities.

Crimes Charged Against Germany

British War Secretary Announces Some Cases Laid Before Investigators

London.—Winston Spencer Churchill, secretary for war, announced in the house that the facts in the following cases had been laid before the committee appointed by the attorney-general to investigate alleged violations of the laws of war:

Private McGinnis, 1st Coldstream Guards, was tried to a post for three hours in a snowstorm on December 7, 1914, at Gastrow camp and died early the next day, probably from pneumonia.

Private Simpson, 1st Coldstream Guards, reported to have been wounded in the thigh with a sword in the hands of a German adjutant at Schneidemühl camp on November 7, 1915, died in a hospital January 6, 1916.

Private Skett, 3rd Coldstream Guards, was a prisoner of war at Pines, on the eastern front, and being exhausted after a long march in the snow on April 7, 1917, was unable to proceed. He was ordered by a sentry to move on. "On seeing that he was unable to do so, the sentry deliberately killed him."

Railway Shop Workers May Now Strike

Canadian Railway War Board Has Made No Move In Answer To Union Ultimatum

Montreal.—The Canadian railway war board has absolutely nothing to say, either officially or otherwise, regarding the strike ultimatum sent them by the Railway Federated Shop trades, representative of 35,000 workers in all the railway shops of Canada. The executive committee of the federation is in the same position, and has made its statement, which is issued to all the members, for a strike and now awaits the expiration of the time limit of the ultimatum or the next move of the railway companies.

Command Riga Gull

Paris.—(French Wire).—The Council of Four has sanctioned the occupation of Oesel Island, which commands the entrance to the Gulf of Riga, by British troops. The Estonian government agreed on the occupation as a guarantee for the payment of financial aid to the Estonians.

Increased Divorce Rate
Ottawa.—According to a return tabled by parliament, 398 applications for divorce have been received by the Dominion senate since confederation, and 441 divorces have been passed by the upper house. During the present session, up to May 31, 58 divorce petitions have been received and 42 divorces recommended. In connection with seven applications all fees have been remitted, while in ten cases the fees have been partially remitted.

Final plans are now being prepared for the three additional farm schools that are to be built this summer at Youngstown, Raymond and Glenbow. Through these schools additional farm work will be developed. It is hoped to have the schools themselves finished in time for the winter session, which begins early in November.

Babylonian Tablets Bought

Columbus. — Thirteen clay tablets dating from 400 to 2400 B.C. have been purchased by the Ohio State university library. They were found in ancient Babylonian cities recently excavated. "One tablet contains notices of the number of animals to be sacrificed at the temple each day. The others are letters, business communications and receipts for animals."

HAD WEAK and FAINTING SPELLS

Those feelings of faintness, those weak "all gone" sinking sensations which come over some people from time to time, are warnings that must not be neglected.
They mean an extremely weakened condition of the heart and a disordered nervous system.
When the system is in this condition there is no time for delay. One fainting spell may be recovered from — will the next? One dizzy spell may pass off, but the next may be more serious.
Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes deep rooted and perhaps hopeless.
They will act directly on the disordered heart and weakened nervous system, and restore them to full strength and vigor.
Miss Mary McCoy, Algoma Mills, Ont., writes: "I was swiftly troubled with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of those spells, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to anyone."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of the price by The T. J. Milburn Co., Limited, Toronto, Ont.

Wheel Greatest Invention

"A World Without Wheels Is Best Left to the Imagination."
Some time ago readers of an English newspaper were asked to state what, in their opinion, constituted the world's greatest invention. There followed a veritable postcard deluge. Having sifted the wheat from the chaff, it was decided to award the guinea prize to Sir J. H. Jordan of the 19th Hussars, Aldershot, whose entry read:

"The world's greatest invention is undoubtedly the wheel, and the palm should be awarded to the unknown genius who invented it.
"Steam traction, spinning looms, motor cars, and, in fact, almost every invention and machine now in everyday use, owes its very existence to wheels, and depends upon the wheel to enable it to carry out its functions.
"A world without wheels is best left to the imagination. No taxis, no trains, no watches, no ships, and no 'revolution.' In fact, like life, it is 'wheel-less' that make the world go round."

A Broad Hint

A young woman going with a party of visitors through the parks and gardens of a famous house, flattered beyond measure by the attention of the gardeners who stood by.
"Do these birds ever drop any of their tail feathers?" she asked of a gardener who stood by.
He looked round, lowered his voice, and replied:

"They're obstinate birds, miss, but they drop 'em easy at the sight of a quarter!"

Cost Of Living From Farmers' Standpoint

English Agricultural College Professor Tells Cost of Production

Ottawa.—Professor Toole, of the English Agricultural College, gave the cost of living committee of the common figures of cost of the production of butter, beef and pork. These figures were the result, he said, of tests undertaken, supervised or observed by himself.

For the year ending February 28, 1918, a careful account was kept of the costs of 437 Oxford county farmers. Five hundred dollars was allowed to the farmers as wages, and seven per cent. for his investment. Other expenses were accurately allocated, and they found that the average cost of milk was \$2.17 per 100 pounds. The average price paid for the milk was \$2.10, per 100 pounds. Today, with good management, milk per 100 pounds would cost from \$2.50 to \$2.75 to produce. The cost of labor had a wet day in Glasgow that a man, efficiency had decreased 10 to 20 per cent.

Col. Mackie suggested that a western range owner should be brought to Ottawa to explain the extraordinary increase in the price of steers. Some years ago he had got \$40 and never more than \$45 for 1,400 to 1,500 pound steers, but during the last three years the range owners were getting from \$100 to \$125 for the same class of animal. It was decided that this should be done.

Says Britain Must Aid Emigrants

In an address given by Lord Milner under the auspices of the Colonial Emigration society there was a significant change in the attitude toward emigration from the United States to the overseas dominions, and he held that it was the duty of the government to give more active help and guidance than hitherto. This could be done in two ways, direct emigration into the right channels, and make such arrangements that on arrival in their new homes the emigrants should have the best possible chance of success. Lord Milner said it was very necessary that the governments of the United Kingdom and the Dominions work very closely and cordially together.

Chadale's Successor for Experimental Farm

Ottawa. — The vacancy caused by the promotion of Dr. J. H. Grisdale, director-general of experimental farms, to be deputy minister of agriculture, has been filled by the appointment of E. S. Archibald, B.A., Dominion animal husbandman, to the position formerly occupied by Mr. Grisdale.
Mr. Archibald was appointed Dominion husbandman in June, 1912, and has filled the position with a great deal of success. For the past year he has been acting director of experimental farms.

Famous Battleships

Example of the Continuity of Naval Nomenclature

The name "Elizabeth" is one of the traditional names of the British navy. There was an Elizabeth in the fleet as early as 1514, and the name was handed on from ship to ship almost without a break for 250 years. Then for centuries it remained forgotten, until 1912, the prefix "Queen" being added in accordance with the fashion introduced by King Edward.

Strangely enough, former Elizabeths have been associated rather with the failures of the navy than the successes of the British navy; and so the superstitious will wonder why the "Lizbie" was sent to the Dardanelles!
Tiger is another example of the continuity of naval nomenclature, for there has been a Tiger of some sort, fighting, chasing, blockading and cutting out for the last three centuries of naval warfare in various quarters of the globe. The first was built in 1546, and the present battle-cruiser is the eleventh warship that has borne the name. To link up the two would be to write the history of the British navy—or most of it.

School Fairs in Alberta

School fair work in Alberta is to be a much larger undertaking this year than ever before, the number of school fairs being organized being considerably more than double that of any other year. The Vermilion district will have eighteen fairs this year, Olds sixteen, and Chatham fourteen, while last year there were only about sixteen altogether.

But few men ever make their way through the world on the strength of their prehistorical development.

Clean Stomach, Clear Mind. — The stomach is the workshop of the vital functions, and when it gets out of order the whole system clogs in sympathy. The spirits flag, the mind droops and work becomes impossible. The first care should be to restore healthful action of the stomach, and the best preparation for that purpose is Parwhite's Vegetable Pills. General use for years has won them a leading place in medicine. A trial will attest their value.

Flying Fishers
None of us can yet tell how many ways aviation is going to benefit our industries. There is one very important use to which it can be put which is at present engaging official attention, when flying over the sea in fine weather, can see a long way down into the water, a fact which was made full use of in the course of U-boat hunting. From an aeroplane shoals of fish can be observed from the surface, and the suggestion is that trained observers should be employed on the principal fishery grounds to signal the presence and whereabouts of these shoals to the waiting trawlers below. — London Daily Chronicle.

Blairmore, Alta., Thurs. June 19, 1919

The happiest man in the world is the common, every day chap, who makes his own living, pays his own bills and has the respect of his neighbors. He saves a little money as he goes along, but doesn't try to get a corner on his local output, and he is not a slave to ambition or society. He never expects to wear out his trousers in the senate, and when he glides out of bed in the morning he never wastes any time trying to pick out the right tint of socks, suspenders and necktie that will blend with the general effect. He only wears a high collar when he feels like it, and when his pet corn begins to jump, he jerks out his knife and cuts a four-inch gash in the side of his shoe and nothing is said about it in the local paper. He never has to sit-up at night to polio his conscience. He believes in the doctrine of live and let live. When he encounters one of the needy he doesn't stutter with his pocketbook. The plain plug of a man is happy because he is satisfied and he doesn't spend half of his time yearning for something which his salary doesn't permit him to buy. Give us some more plain men and the world will be better.

Camp Fires are Forest Destroyers

In almost every part of Canada, the camp fire of picnic and fishing parties continues to destroy more of public-owned timber than could be grown by the planting of scores of millions of trees.

From every direction comes urgent suggestion that governments start to replant the waste forest areas. This procedure may profitably apply to certain sections of Canada. The main consideration, however, is to stop the destruction of timber requiring a century to grow. Planting is a highly expensive alternative to fire prevention. If camp fires were invariably extinguished, there would be less need of asking the public treasury to assume the cost of rebuilding the forests by the use of millions of seedlings. Camp fires in Canada have stolen more public wealth than would have transported the guilty campers round the world on a luxurious free trip. Veteran woodsmen always build their fires small and build them in a safe spot, such as along a rocky shore or on a gravel or sand base, never among leaves or against a log.

The "One Big Union"

The general strike which has held Winnipeg in its grip since the 15th of May, coupled with the attempt made to extend it throughout the whole of Western Canada, and even into Eastern Canada, has directed public attention very closely to the movement for the formation of One Big Union in this country, because this Winnipeg strike has been modelled and managed on the One Big Union plan. In reality it is not an industrial strike such as have hitherto taken place in Canada, but an attempt at revolution—not merely an industrial revolution, but a genuine political revolution, because the industrial revolution which is sought to be brought about is only possible by first achieving a political revolution, and the complete overthrow of existing forms of responsible constitutional government.

At the Western Canada Labor conference held in Calgary in March, at which the One Big Union was decided upon, a resolution was presented to take political action and form a political labor party. The resolution was tabled, one of the One Big Union leaders declaring that the workers wanted they must take by power. Another delegate during a discussion on the franchise said: "I don't see any bearing on the matter, having a vote. I have been in the country fifteen years and never voted yet." So far as taking the franchise off, let it go so long as we live on conditions alongside the workers and fight. I don't see why we should worry about the vote; it is neither here nor there."

It will be seen, therefore, that the One Big Union does not propose to act along constitutional lines, but through the organization of all workers in One Big Union to apply force and take control, not only of all industry, but of government itself.

The One Big Union outlined its aim in a resolution, declaring: "Be it resolved that the aims of labor as represented by this convention are the abolition of the present system of production for profit, and the substituting thereof production for use." Further resolutions set forth the plan for the formation of the One Big Union the prevailing idea should be that "its ultimate goal will be the abolition of the wage system and that the six-hour day is only of transient importance; our goal is the ownership of the land, mills, tools and instruments of production by the toiling masses themselves."

In order to make its intention perfectly clear the One Big Union convention unanimously declared: "Be it resolved that this conference place itself on record as being in full accord

"Just can't work any more. The faded, faded, over-worked woman, with pain here or there, should ask her neighbor for advice. Ten to one she was dragged down by the pains of her sex, and was completely cured by that temperance tonic made from wild berries and roots, and known for 50 years as Dr. Pierce's Favorite Prescription. When a woman complains of back-aches, dizziness or pain—when everything looks black before her eyes—a dragging feeling, or bearing-down, with nervousness, she should turn to this 'temperance' herbal tonic, known as Dr. Pierce's Favorite Prescription. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on the wrapper. Put up in tablets or liquid. Dr. Pierce of Invalids' Hotel, Buffalo, N. Y., will send a trial size for 10 cents."

Toronto, Ont.—"Dr. Pierce's Medicine has been a wonderful tonic for me. It is in hope that others may be benefited by its use. When I was a girl I was always delicate. My mother thought I could never marry. As a girl older I grew worse; doctors said I would have to have an operation. I suffered at times of all my trouble. After I married I used it. My children are all healthy and strong. This medicine did wonders for me, and I am now suffering, and I can highly recommend it to every woman or those suffering from it. Dr. Pierce's Favorite Prescription. Rona, 145 Toronto Street."

and sympathy with the above and supporters of the Russian, Bolshevik and German Spartacist revolutions." And in support of the policy of the One Big Union a foremost delegate said: "I realize you can't make the will power by withdrawing the hands of the pump outside. I further realize that capitalism cannot be reformed, but can be destroyed, and we have got the organization to destroy it," a statement which the official labor report was received with loud applause.

Further evidence of the revolutionary character and intention of the One Big Union was given in a resolution, in part as follows: "Whereas holding the belief in the ultimate supremacy of the working class in matters economic and political, and that the light of modern developments has proved that the legitimate aspirations of the labor movement are repeatedly obstructed by the existing political forms, clearly showing the capitalist nature of the parliamentary machinery, this convention expresses its open conviction that the system of industrial control by selection of representatives from industries is more efficient and of greater political value than the present system of government by selection from districts; this convention declares its full acceptance of the principle of 'proletarian dictatorship' as being absolute and efficient for the transformation of the capitalist private property to communal wealth."

The Western Labor News, of Winnipeg, official organ of the strike committee in that city and a recognized organ of the One Big Union, in its issue of April 18, 1935, declared the strike was called printed a large diagram showing how all workers, including all hired help engaged in general and stock farming, threshing engineers, blacksmiths, sheep shearers, workers on irrigation facilities, fruit packers, packers and box makers, were to be organized in the One Big Union. As in the Bolshevik soviet government in Russia, every man or woman who works for hire is to be described in the complete relief from suffering which follows the use of Dr. J. D. Koldog's Asthma Remedy. Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking, inflamed tubes. It has made a dramatic fiction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

"Fine," said one little fellow. Then after a pause, he added, "I wish our milkman kept a cow."

Ex-Soldiers For Farms
Applications for the Benefits of Soldier Land Settlement Provisions
Up to the third day of May, 6,598 applications for the benefits of the soldier land settlement provisions had been approved by the qualification committees in the whole of the Dominion. The "great" number of applications in Alberta, where 1,134 applications have been approved by the Edmonton office and 767 by the Calgary office. Saskatchewan shows 1,264, Manitoba 1,535, British Columbia 946. In the last numbers approved the provinces are: Ontario 426, Quebec 115, New Brunswick 189, Nova Scotia 114, and Prince Edward Island 104.

The total number of applications received in all the provinces is 9,849. Reports also show that 508 applicants have been recommended for agricultural training, and 143 have applied for and are actually taking training, either at the training centers or on farms of selected farmers.

German Trophies In Canada

Captured by Canadian Soldiers on the Battlefields of France
Montreal, Quebec—Sixty-five German guns, captured by Canadian soldiers on the battlefields of France, were unloaded from the steamship Vineland in Montreal Harbor and placed aboard flat cars for transportation to Ottawa for distribution by the War Trophies Office through the various provinces to which they are allotted. Of paramount local interest is a nine-inch German howitzer, mounted on caterpillar wheels, which was captured by the 24th battalion of Montreal, and which is destined for the Victoria Rifles of this city. So heavy is this huge weapon that the powerful floating crane of the harbor commissioners, which is capable of lifting a weight of 75 tons, was brought into use to raise it from the Vineland's hold, together with three other howitzers of similar size.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Chandy for Your Face, Neck, Arms and Hands
At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing into a bottle two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, blotches and sunburn, and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white, at any drug store and two lemons from the grocer and make up a quart of this freshly strained lemon lotion and massage it daily into the face, neck, arms and hands. It is so precious to smooth rough, red hands.

"Well, boys, how do you like it?" the farmer said, when they had drained their glasses.

"Fine," said one little fellow. Then after a pause, he added, "I wish our milkman kept a cow."

Ex-Soldiers For Farms
Applications for the Benefits of Soldier Land Settlement Provisions
Up to the third day of May, 6,598 applications for the benefits of the soldier land settlement provisions had been approved by the qualification committees in the whole of the Dominion. The "great" number of applications in Alberta, where 1,134 applications have been approved by the Edmonton office and 767 by the Calgary office. Saskatchewan shows 1,264, Manitoba 1,535, British Columbia 946. In the last numbers approved the provinces are: Ontario 426, Quebec 115, New Brunswick 189, Nova Scotia 114, and Prince Edward Island 104.

The total number of applications received in all the provinces is 9,849. Reports also show that 508 applicants have been recommended for agricultural training, and 143 have applied for and are actually taking training, either at the training centers or on farms of selected farmers.

Hungary Wants Allied Help

To Put Down the Hungarian Communist Government
Vienna.—Allied intervention in Hungary was urged by Count Julius Andrássy, former Austro-Hungarian foreign minister. The count, in company with other excited Hungarians, is trying to put down the Hungarian communist government.

"The only way left for us is allied help," the count says. "It is useless to treat with the communists. Every day delayed means greater ruin for us and a loss for the whole world. It will be fifty years before we can undo the waste caused by the communists. Every bank is bankrupt, every rich man impoverished and every industry ruined."

The communist government will accept any frontier proposed by the peace conference and will then spend its energies in propaganda among the neighboring countries. If intervention comes quickly and the communist leaders are made responsible for the lives of their hostages, there will be no shedding of civilian blood.

Oysters and Cement
Oyster shells are being used extensively in the manufacture of Portland cement along the coast of the Gulf of Mexico.

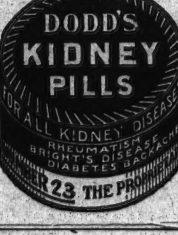

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation warranted to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, it is an indication of their powerful action and not of any nauseating property.

Dead Mail

Public Is Becoming Careless With Its Correspondence
The public is becoming more and more careless with its correspondence. During 1918 the Division of Dead Letters received 14,451,953 pieces of first class mail, an increase of 837,026 over the previous year. An unusual number of suitcases and travelling bags without address also came in to this division.

Cheques, drafts, money orders and other valuable enclosures of the face value of \$4,194,839 were received in letters and \$177,638 in actual money. Of this, \$37,918 could not be traced and delivered, and consequently was turned into the treasury. The net revenue of the dead letter service during the year was \$81,563, an increase of \$22,298 over 1917.

America's Record In War Commended

Lord Robert Cecil Declares His Doubts If Ever a Nation Fought So Unselfishly
Paris, France.—Lord Robert Cecil has given his impressions of the peace conference. In his section of the peace work he was happy to say that the American and British delegations had worked in closest sympathy and co-operation throughout. He emphasized the unselfish aims of the United States in connection with the war, and said, in reference to the apparent opposition in the United States to the League of Nations, that it would indeed be deplorable if the record of America should in any way be marred when the peace conference came to an end.

America has striven for peace, said Lord Robert, but it has been a peace without material reward. "She has sought no territorial aggrandizement and no financial advantage. I doubt if there is any example in history of a nation which has taken part in a struggle of comparable magnitude which has at the end asked for no direct national reward," Lord Robert declared.

Wife: Richard, I wish you would take care of the baby for an hour or two. I am going to have a tooth pulled.

Husband: See here, dearie, you mind the baby, and I'll go and get a couple of teeth pulled. —Cartoons Magazine.

Minard's Liniment used by Physicians

A Violent Peace
"And you call yourself a lover of peace!" said Mr. Rafferty.

"I do," answered Mr. Dolan.

"But you're continually dripping the brick on Casey!"

"Yes, I've never known Casey to be so peaceful as he was just after I dropped that brick!"

"Black Watch!"—The Best Black Plug Chewing Tobacco on the Market

"Anybody who doubts the wisdom of the Chinese should read their proverbs. The Chinese have a book of ten thousand proverbs, and they're all as wise and true as the first one in the volume, which says: 'It is safer to pull a tiger's tail than to call a woman's attention to her first gray hair.'—Detroit Free Press.

Aberdeen to Canada!
The reopening of the Channel Tunnel question recalls the fact that, at the opening of the Port Bridge by the late King Edward, then Prince of Wales, on March 4th, 1890, the program bore a picture of an engine named "Progress" drawing a "through carriage"—Aberdeen, London, Dover, Channel Tunnel, for Paris, Berlin, St. Petersburg, Alaska, Canada. That was twenty-one years ago, and St. Petersburg has become Petrograd in the interval, but the artist's dream remains otherwise unchanged.

A woman can get a shiftless husband in about five minutes, but it sometimes takes a lifetime to get rid of him.

Keep Minard's Liniment in the house.

Who Will Make a Beginning?
The high cost of living is the bugbear of today, and the end is hard to see. It is higher wages one day, and lower costs the next, and so it goes, living the third day, a circle which it is going to be hard to break. If a few of the basic commodities became cheaper there would be a chance of a downward movement all along the line. Living would be easier, and the whole trend of industrial and commercial life would become steadier, and development and expansion would begin anew.—Winnipeg Free Press.

Timber Rives Arrives at Denmark
The giant timber raft, composed of half a million logs, the arrival of which was recently reported in Stockholm after a journey of 480 nautical miles, has now arrived safely off the coast of Denmark on its way to its final destination—Copenhagen. The timber has been purchased by the Copenhagen municipal authorities, with the object of supplying timber for urgent building operations to cope with the serious lack of house room.

A boy who calls his mother "the old woman," or his father "the governor," is building upon the sand. Do you want to be a power among men, to be a leader? Learn to control your temper, to master yourself. A boy who does not control his tongue and his temper will never become a master of men. Do not imitate the vices of fast young men, thinking it will make you manly.

Wallace, of the Fernie Free Press, has been settled out of court, Lawson agreeing to pay to Wallace \$250 and costs in the case and to retract his statement upon which the suit was based. Lawson admits that the statement complained of was made to him by a Mr. Jackson, former alderman, who refused to come to court to testify, being outside the jurisdiction of the court.

The government is not doing justice to the towns of Cowley and Lundbreck by neglecting the main highway through that section and permitting ninety per cent. of through auto traffic to pass them up by taking the southern route. The southern route may be the shortest and best road and the easiest grade, but some consideration should be given established towns in a thickly populated district. Tourist traffic is greater this year than it ever was, and much of it is passing up the Cowley-Lundbreck district.

Sunday last was observed as Memorial Day by the Oddfellows and Rebekahs of Bellevue and Coleman. Quite a number of local members went to Bellevue on Sunday forenoon, where, following an appropriate service at the Methodist church, conducted by Rev. Bro. H.
